

# ACCESSORIES

typically used with Entel Fire Fighter radios

As a major supplier of ATEX firefighter radios to Fire and Rescue organizations globally, Entel has an extensive selection of firefighter radio safety equipment complete with a full range of audio accessories appropriate to this application. This includes a range of bone-conductive options that can fit easily with existing BAs. Should the customer demand radio communication with the use of integrated Breathing Apparatus, Entel can offer two market leading products from Draeger and Scott Safety that are approved on our ATEX certificate, providing peace of mind to the user that the whole solution, i.e. radio and the BA, is ATEX approved and safe for use in hazardous environments.

## Skull mic

CXR5/950

### Features:

- ✓ High performance bone conductive skull mic
- ✓ Unique fastening-strap system fits all BA & helmet designs
- ✓ IP54 robust durable design
- ✓ Supplied with Submersible quick release PTT unit
- ✓ ATEX & IECEx Approved

## Throat mic

CXR16/950

### Features:

- ✓ High performance bone conductive throat mic
- ✓ Can be used under protective suits
- ✓ Soft-feel washable neck band
- ✓ IP54 robust durable design
- ✓ Supplied with Submersible quick release PTT unit
- ✓ ATEX & IECEx Approved

## Dräger

FPS-COM &  
FPS-COM PLUS

### Features:

- ✓ Fully Intergrated Face Mask
- ✓ ATEX Approved

## SCOTT SAFETY

SABRE COM

### Features:

- ✓ Fully Intergrated Face Mask
- ✓ ATEX Approved

# ENTEL HT Fire Fighter Radio

Commercial Marine Portable Radios

## SOLAS Chapter II-2, Regulation 10.10.4 the mandate designed to improve fire safety at sea

### IMO Regulation

The IMO regulation (SOLAS regulation 10.10.4) requires all new ships from 1<sup>st</sup> July 2014 to equip their firefighting teams with at least two intrinsically safe radios for critical fire fighter communications. Vessels built prior to 1<sup>st</sup> July 2014 need to comply to the new SOLAS regulations by 1<sup>st</sup> July 2018.

### Entel's Solution

Entel offers a comprehensive range of UHF intrinsically safe portables which comply with the new SOLAS regulations. The following options of Intrinsically Safe Radios are available:

- ATEX Approved IIC - The HT900 range of ATEX certified portables meet IIC T4 - the most stringent ATEX ratings as per EU directive 94/9/EC.
- ATEX Approved IIA - The HT800 range of ATEX certified portables meet IIA T4 with 2 watts RF power - for those users not restricted to the IIC 1watt regulatory classification.
- IECEx Approved - The HT500 range of two way intrinsically safe certified portable radios meet IECEx

Typical Package 1	Typical Package 2
QTY2 UHF HT Fire Fighter Radios	QTY2 UHF HT Fire Fighter Radios
Supplied with:	Supplied with:
