

## Digital Technical Publications

**+Library** is a digital technical catalogue of eBooks for use on board vessels. It manages all publications that are needed on board and displays them in a user friendly environment. The digital library is easy to access and update and you don't need to be online to use it.

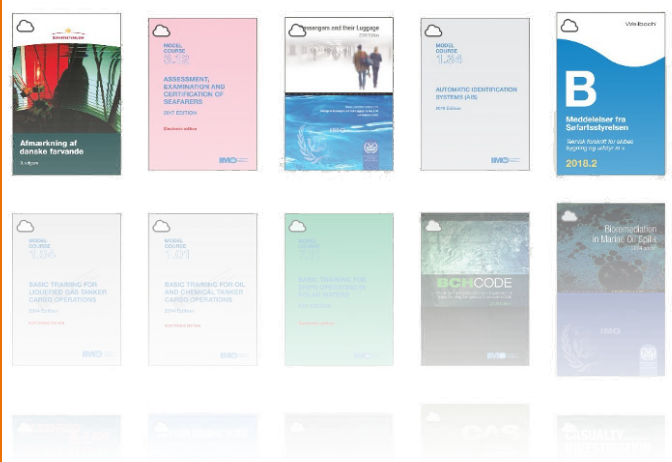

**+Library** makes compliance easy by keeping required publications updated on board at all times.

The shipping costs and administration associated with the maintenance of a paper collections are removed as there are no physical books to ship and the entire library is updated with the click of a button.

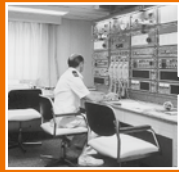

## Key features

- Full digital technical library easy to use and update online and offline
- Logistics-free solution
- New books added regularly
- Instant ordering and filtered searching
- IMO and Flag state approved
- ISM-SMS compliant
- Easily access certificates for inspections – no unlocking
- Reduces administration on board & ashore.
