

PREVENTIVE MANDATORY AGREEMENT (PMA)

Let Radio Holland take
the strain and keep your
NavCom running smoothly

PREVENTIVE MANDATORY AGREEMENT

Relax in the knowledge that your NavCom complies with regulations at all times and keep your crew safe and your business uninterrupted.

We make things easy by ensuring that mandatory inspections and surveys are done when it's convenient for your vessel. We will also help you reduce the costs of ownership by providing an easy to understand equipment health check and performance report. At Radio Holland we care about your fleet and your equipment and we keep everything stress free.

THE BENEFITS

Why choose PMA

- Complete peace of mind knowing that Radio Holland will take care of all your Nav-Com mandatory requirements
- Increase vessel availability by improving equipment reliability
- Reduce breakdowns, unplanned maintenance and unexpected costs
- Benefit from Radio Holland priority service

THE FEATURES

What comes as standard

- Planned Radio Safety Survey, AIS EPIRB, SART, SSAS, Survey and (s)VDR Annual performance test
- Complies with IMO SOLAS GMDSS regulations (Chapter IV Reg. 15) and radio maintenance guidelines (Res. A702 [17]) for shore-based maintenance contracts
- Shore-based maintenance certification
- Equipment inventory registration
- Pro-active electronic expiry alert on all GMDSS equipment & certification

OPTIONAL ADD-ONS

Tailor your package for your vessel/fleet

- Gyro overhaul & maintenance
- Replacements of gyro sphere, equipment batteries and VDR beacon
- Radar inspection including magnetrons & brush replacement
- Bridge Navigation Watch Alarm System (BNWAS) inspection & maintenance
- Electronic Chart Display (ECDIS) inspection & maintenance
