## Radio Holland

### Always There Everywhere

Radio Holland is well-known in the worldwide maritime industry as global NAV-COM, Connectivity, ICT on Board and Service & Maintenance provider. Available 24 hours a day, 7 days a week, Radio Holland connects its customers to an unrivalled Global Service Network of 70 offices along the global shipping routes. Radio Holland delivers unique technical service expertise which helps customers run a smarter, more profitable business with less downtime and lower operational expenditures. Our highly skilled technicians are experts in maritime electronics who deliver top quality, on-the-spot services. Radio Holland offers cost-saving service agreements and remote monitoring maintenance support to vessels at sea around the world.

### We'll get the job done!

Radio Holland the global multi-card technology company with a large worldwide service network of own branches, as well as many support locations. Our business is to provide ship-owners, managers, contractors and shipbuilders with the best solutions for their maintenance requirements. Whether it concerns an ocean-going, fishing, or inland shipping vessel, superyacht, an offshore platform, workboat, FPSO or a dredger, we are committed to offer our customers truly global service with a service organization that is unique.

### Our history

Radio Holland was founded in 1916 by a group of Dutch ship-owners, who saw the significance of radio communications to aid the safety, dynamics and efficiency of shipping. In the years following this pioneering start, the company expanded its activities considerably and now enjoys a solid reputation worldwide as an all-round maritime electronics specialist. Throughout the years, we have remained a strong and renowned name in the shipping industry.

### Our vision

Radio Holland is the leading provider of electronic solutions which enable the operator of maritime platforms to reduce his cost of ownership in a changing global maritime market.

### Service Agreements

Our service agreements are all about peace of mind and reducing cost of ownership. We offer various tailored service agreement formats, matching specific customer requirements. Be it outsourcing of your equipment maintenance, planning of mandatory inspections, annual equipment health checks or compliance for your GMDSS station. Contact us for more information about the service contract suiting your needs.

### Remote Support

Remote monitoring of equipment and analysis of (performance) data is vital to decrease operational costs. By monitoring essential equipment, problems can be identified in time and solutions can be found. Ultimately, predict a problem before it occurs, and if possible, solve it remotely. Radio Holland's strategy regarding remote monitoring is focused on decreasing the total cost of ownership by providing insight into vessel operations and planning action in time. Goal is optimized uptime and availability of the vessel. Radio Holland can monitor the performance of the vessel remotely via 24/7 follow-the-sun remote support centres. Predicting and solving issues remotely and cutting down costs. Radio Holland provides monitoring dashboards which are available 24/7. The dashboards show information of various equipment on board. The dashboards also enable the owner to extract a wide variety of data, including for example fuel usage, speed, course, weather conditions and general maritime information. The ship owner can analyse this data and see if operations can be optimized.

You can reach us 24 hours a day, all around the world!

## Our advantages

- 24 hrs / 7 days a week service and parts
- Global coverage
- Unique and extensive expertise in international rules and regulations
- Global service coordination
- Local single point of contact
- Fast & customized service and parts delivery
- Central Service Database
- Managed Services Agreements with customer service reporting and analysis
- Highly skilled personnel
- Advice on preventive maintenance and efficiency improvements
- Cost effective solution

## Editorial notes

- In this list (aoh) stands for 'After Office Hours'.  
Both 'Depot\*' and 'Depot' offices are operationally controlled by the head office by which they are supported and from which they retrieve stock items. A 'Depot\*' is likely to have office support during office hours.
- For agreement related vessels requiring service in a RH depot ports, local travel, mobilization and tax/ duties charges are applicable.
- In some addresses, the header and actual city name itself may be different. If this is the case, the actual address city name is applicable and the contractually binding one.
- This list states the Service Stations of Radio Holland Group B.V..  
It is a continuously updated publication and published at irregular intervals.
- This list is available for download from:  
our Radio Holland website <https://www.radioholland.com/service-stations/>,  
or from our intranet site <https://www.radioholland.com/services/class-surveys/>
- If any changes are applicable, please send an e-mail to: [frans.rieteco@radioholland.com](mailto:frans.rieteco@radioholland.com)
